DME Fee Schedule

- [2024 Fee Schedule-](#)

Pricing is based on AHCA maximum payment guidelines and is not negotiable. eQHealth does not have the authority to negotiate, alter, or apply any other pricing strategy. Pricing information is available prior to a medical necessity determination. This information does not guarantee approval of the request nor payment for services. Please utilize the Florida DME Fee Schedule Pricing.

Authorization Requirements Policy

- [Florida Medicaid Authorization Requirements Policy](#)

FL Medicaid DME and Medical Equipment Coverage Handbook

- [FL Medicaid Durable Medical Equipment and Medical Supply Services Coverage & Limitations Handbook](#)

Prior Authorization Numbers

Please reference the Florida Medicaid Fee Schedule for Authorization Requirements. The Fee Schedule can be found on AHCA's website or on our website [**FL.ACENRA.COM**](http://FL.ACENRA.COM)

- On the Fee Schedule if the code has a “**PA**” this means the code requires prior authorization and once approved you will receive your authorization letter with a PA#.
- If the code only states “**Medical Necessity**” the code requires prior authorization however it does not require a PA #. A PA# will **NOT** generate when you receive your authorization letter.

Note: *To avoid a denial on your claims make sure to include your authorization letter with your claim submission.*

- By Report (BR) This column identifies a “Non-Classified” procedure code that requires a medical review to approve and price the procedure correctly.

Prior Authorization Numbers

Example:

E0445 Oximeter Device For Measuring Blood Oxygen Levels, Non-Invasive

On the Fee Schedule it states “**Medical Necessity**” on the Limit column. That means prior authorization is required. However, when you receive authorization, the letter will **NOT** generate a Prior Authorization number.

- The Early and Periodic Screening, Diagnostic and Treatment Services program ensures that children and youth under age 21 receive a comprehensive array of preventive, diagnostic, and treatment services.
- Requests for children under the age of 21 for items on the DME fee schedule over the limits are considered EPSDT or Special Services.
- Requests for children under the age of 21 for items not on the DME fee schedule are considered EPSDT or Special Services.
- Many Items that recipients under age 21 may not have the actual HCPCS code loaded in eQHealth or they are unable to be transmitted to the PA system at Florida Medicaid – in those instances please use the following codes
 - A9900-Continence, Ostomy, and Wound Care supplies
 - E1399- DME Items that exceed the limits or services not listed on the fee schedule

Question Rephrased in eQsuite®

Is this a DME supply that is covered under the EPSDT benefit for quantities over the limits on the DME Fee Schedule, or the item is not on the DME Fee Schedule?

We have provided some helpful tips on how to answer this question correctly to avoid any potential delays in the review process.

- **EPSDT:** Early and Periodic Screening, Diagnostic and treatment ONLY applies to recipients under the age of 21. If you are submitting a case and the recipient is over 21 this question does NOT apply, and you should be checking **“NO”**

Example: If the recipient is under 21 and the item is NOT on the fee schedule or if the item is over the fee schedule limit you should be checking –**Check “Yes”**

Example: Recipient is under 21 and you are requesting A9900 Continence, Ostomy, and Wound Care supplies- **Check “Yes”**

Example: Recipient is under 21 and you are requesting E0316 (SAFETY ENCLOSURE FRAME/CANOPY FOR USE WITH HOSPITAL BED, ANY TYPE)-This item is on the Fee Schedule. **Check “No”**
